

## SCOUT Security Rollout & Matrix Login Screen Change

Starting June 9<sup>th</sup>, the Matrix login page will change to a dual login screen to facilitate the phased rollout of SCOUT. We will gradually transition everyone from the SafeMLS token to the new Scout Security password over the next 60 days.

Because of the unique security system situation, not everyone will be asked to enroll at the same time. Please be patient as we get everyone transitioned over.

**IMPORTANT:** You will continue to need your SafeMLS Token UNTIL you have enrolled your new password. In addition, if you are dual member of SoCAL MLS or SANDICOR MLS keep your SAFEMLS token to log into their system as there will be no immediate change to their login methods.

### SCOUT INFORMATION:

- All forgotten passwords will be sent to your email that is recorded in the Matrix roster. Go to the Matrix Add/Edit tab to update your email address or contact your Local Association or Board of REALTORS®.
- SCOUT Security is compatible with PC and Mac operating systems and Smart Phones
